

RESTORING OUR NATURE: WILDLIFE HEALING & RECOVERY HABITATS

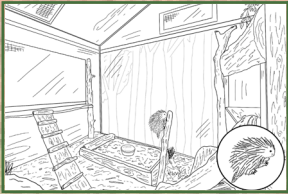

Aquatic Species Recovery Enclosures

Featuring proper ventilation and large, filtrated pools to support seabird and freshwater aquatic species recovery.

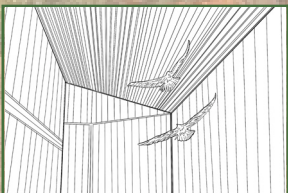

Reptile & Amphibian Recovery

Proper humidity and temperature control along with terrestrial and aquatic terrain for recovering reptiles and amphibians.

Mammal Recovery

Access to sunlight, climbing and chew-proof natural habitats for recovering mammals.

Raptor Recovery Enclosure

Large, sunlit flight enclosures with proper perching and navigation challenges for raptor recovery.

Songbird Recovery

Predator-proofed, soft material lined flight enclosures with customized habitat features for songbird recovery.

Work Area

A small outbuilding for work area; including food prep, cleaning, roof raking, and snow removal.
